OBJECTIVE

IT graduate with hands-on experience in mobile development using Flutter and Swift/SwiftUI, with skills in UI development, RESTful API integration, debugging, and functional testing. Seeking an Intern Mobile Developer position to contribute to real-world projects while further developing my iOS and mobile development skills.

EDUCATION

2022 - 2026

University of Transport Ho Chi Minh City
Information Technology

- Graduated with Good Classification
- GPA: 3.30/4.00
- Recipient of the **Academic Scholarship** (First Semester, 2023)

WORK EXPERIENCE

7/2025 - 12/2025

Trung tâm Chuyển đổi số tỉnh Tây Ninh
Intern Mobile Developer

- Redesigned the complete UI/UX in **Figma** for two key projects: the **Slaughterhouse Management System** and the **ICT Document Management System**, standardizing internal user workflows and improving usability.
- Transformed static Figma designs into fully interactive application interfaces using **FlutterFlow**, managing the entire process from UI implementation to functional testing.
- Developed standalone application prototypes to validate new features, significantly reducing demo preparation time and accelerating requirement validation with the management team.

CERTIFICATIONS

7/2026

Foundations of User Experience (UX) Design - Google Learning Program

10/2026

CS50's Web Programming with Python and JavaScript

SKILLS

- **Mobile:** Flutter, Dart, Swift, SwiftUI, Kotlin
- **State Management:** Riverpod
- **Backend & APIs:** REST APIs, Dio, Firebase, Node.js
- **Database:** MySQL, MongoDB, SwiftData, Cloud Firestore
- **Tools:** Git/GitHub, Figma, Swagger, Xcode
- **Other:** Python, Django, Java, HTML/CSS, JavaScript
- **Intermediate Prompt Engineering**
- **English:** Intermediate (approximately IELTS 6.0), strong technical reading

HOBBIES

- Music
- Guitar
- Gym
- Chess
- Reading

PROJECTS

12/2024 - 8/2025

ShareXe – Carpooling Mobile Application

Team Size: 2

Technologies: Flutter, Dart, BLoC/Riverpod, Google Maps API, Socket.io, Node.js, MongoDB, Firebase

- Developed the Passenger App UI/UX using Flutter for a cross-platform carpooling platform.
- Integrated Google Maps API for location tracking and route navigation, and Socket.io for real-time messaging.
- Integrated RESTful APIs and collaborated with the backend to synchronize application data.
- **GitHub:**
<https://github.com/MinhTruc09/ShareXe>

9/2026

SwiftUI Movie – Movie Discovery Application

Team Size: 1

Technologies: Swift, SwiftUI, SwiftData, REST APIs, Xcode

- Developed a native iOS movie discovery app using SwiftUI with movie/TV search and detail views.
- Integrated REST APIs for trending, upcoming, and search results with asynchronous data loading.
- Implemented debounced search, navigation, loading/error states, reusable components, and SwiftData for local persistence.
- **GitHub:**
<https://github.com/MinhTruc09/swiftui-movie>

3/2025 - 7/2025

Agricultural Product Traceability Application

Team Size: 2

Technologies: Flutter, Solidity, AI APIs, Dio, Node.js, MySQL

- Developed a cross-platform Flutter application for agricultural product traceability.
- Integrated RESTful APIs using Dio and AI APIs for agricultural product image recognition.
- Integrated Blockchain-based traceability records using Solidity.
- **GitHub:**
<https://github.com/MinhTruc09/Agricultural-Traceability>

12/2023 - 2/2024

Movieom – Movie Streaming Application

Team Size: 3

Technologies: Flutter, Chewie Video Player, RESTful APIs, Firebase Authentication, Cloud Firestore

- Developed a cross-platform movie streaming application for browsing and online video playback.
- Integrated RESTful APIs for movie data and Chewie Video Player for video streaming.
- Implemented Firebase Authentication and Cloud Firestore for user authentication and favorite movie management.
